

Caledon Community Map Idea Form

Be a part of the map that leaves its mark on the Town of Caledon!

This is a unique opportunity to contribute your ideas and stories to the **Caledon Community Map**, Caledon's first map made by its citizens. Your ideas and stories will help an artist make a colourful map that charts Caledon's unique natural and cultural heritage.

Here are two questions we want to know your answers to:

1. What unique or special natural or cultural features in Caledon are important to you?
❖ Examples: special forests, the Niagara Escarpment, waterways, historic buildings and landscapes, mills, traditions, trails, views, and vistas.
2. Why should they be included on our map?

You may use the space provided to draw (or write) your answers to our questions.

Please consider this form as your invitation to be as creative as possible.

Remember: it's not the quality of your artwork that matters – **it's the *idea* that counts!**

May we contact you for more information, if needed, and include your name as a contributor to the project?
